Olaf,

A touch late, no? Seriously though, this Supplemental "Report" is completely unclear as to what he means by the statement that the Walker depo provides additional insight on the document production and the condition of the door. Those really are not adequate disclosures of opinions as currently written. Anyway, I doubt that I am going to object on basis of tardiness and I don't think I am even going to require a supplemental dep, but I have to know what in the world his additional insights are, in order to finally decide this. Can you please have him draft a letter that gives me this specific information? If this really was just to get it on the record that he reviewed Walker's depo, because that was missing and someone realized it when Walker was served the other day, that's fine. I just need to know that. Thanks.
